Order Form: FREE K-12 Life Science & Health Curriculum Resource Materials

Please complete and return this form via fax or U.S. mail to receive free educational materials (*address at left*). Requests will be processed in the order received, and filled as long as supplies last. Items marked with an *, as well as additional pieces are also available for immediate download on CSBR's website (*address at left*).

One (1) copy per teacher:

- Animal Research Saves Animals!* – Poster
- Animal Roles in Medical Discoveries* – Poster
- Best Supporting Role in a Medical Drama* – Poster
- Biologists Discover Amazing Things* – Poster
- People and Animals: United for Health* – Calendar Posters
- Support Biomedical Research* – Poster
- Thank Research If ...* – Poster*
- Breakthroughs in Bioscience* – Newsletter
- Chemistry of Health* – Booklet*
- Computing Life: Genetics* – Booklet *
- Inside the Cell* – Booklet*
- Medicines By Design* – Booklet *
- The New Genetics* – Booklet *
- The Structure of Life* – Booklet *
- The Use of Animals in Biomedical Research: Understanding the Issues* – Brochure *
- Investigation & Experiment Series: Cloning* – [Grades 9 –12] (Three additional topics: *GMOs*, *Stem Cells*, and *Animal Research Models*, can be downloaded from the CSBR website)

Full class sets are sent whenever possible:

- Biomedical Research in Action: Disease Fact & Information Sheets* – Brochure [Grades 6 – 12]
- Careers in Biomedical Research* – Brochure [Grades 6-12]
- Connecting Human Biology & Health Choices* – Newsletter [Grades 7 – 12]
- LABNotes: Nutrition* – Newsletter [Grades 5 – 8]
- Super Scientists: The Role of Transgenic Mice in Research* – Booklet [Grades 4 – 8]
- Exploring the Life Sciences: A K-4 Activity Book* (a Spanish version is also available for download)
